

suspensor met grote  
basale cel  
protoderm  
endosperm  
antipodal weefsel.

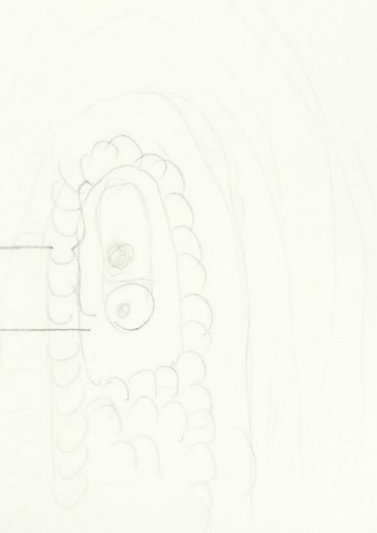

Plantae  
Corydalis  
detail: globular embryo  
100x

locusteltop  
endosperm  
opkomende  
cotyledons  
precambium

Plantae  
Corydalis  
detail: hartvormig embryo  
35x

embryonale  
stercellig proembryo  
(overgebleven  
preparatie hebben  
wij hetas niet)

Plantae  
Corydalis  
detail: proembryo  
30x
